Ettenheim, 10 September 2013

Martin Bellin Nominated for German “Entrepreneur of the Year 2013”

For the 17th consecutive year, Ernst & Young honors entrepreneurs who display outstanding commercial success, innovation, vision and personal commitment. Martin Bellin, founder and Managing Director of BELLIN GmbH, has convinced the expert jury once again and is one of the finalists attending the award ceremony.

Focus on Innovation and Customer Satisfaction

This year, Martin Bellin has been nominated as “Entrepreneur of the Year” for the third consecutive time after 2011 and 2012. “I am proud to be among the finalists. Every year, our team has learned from the experience and further developed our company. This competition is a challenge we appreciate and which takes us another step forward. Now all of us are eager to see which position we will achieve in 2013,” says Martin Bellin.

BELLIN GmbH was founded in 1998 and has grown steadily over the years – equally in terms of customers, sales and employee numbers. Martin Bellin leads his consulting and software company with the aim to enable organizations of all sizes to access the financial information they need for daily work in their treasury – around the clock and in a simple and clear manner. **tm5** is the fully integrated, web-based software solution at the heart of BELLIN. “We integrate the wishes and needs of our customers into the standard product as soon as possible and therefore continuously optimize our system,” explains Martin Bellin.

“Entrepreneur of the Year 2013”

Several hundred entrepreneurs competed this year for the title of “Entrepreneur of the Year 2013”, which will be awarded in the categories manufacturing, trade, services, IT/media and start-ups. In a rigorous multi-stage selection, the judges analyze all aspects of the nominated companies. E & Y conducts personal interviews with the entrepreneurs who reach the final round to give the independent jury composed of representatives of industry and science a complete picture. The entrepreneurs’ commitment, their dedication to employees and society, the sustainability and future potential of their company as well as its successful establishment in the market are decisive criteria. The award ceremony will take place on 21 September at the Alte Oper in Frankfurt.

About the “Entrepreneur of the Year” Contest

An independent jury awards the “Entrepreneur of the Year” to honor entrepreneurial top performances in various categories in more than 50 countries around the world. In Germany, the award will be presented for the 17th time in 2013. Renowned businesses and media companies support the contest organized by EY. These include DZ BANK, Jaguar, Frankfurter Allgemeine Zeitung and Manager Magazin. Besides honoring successful entrepreneurs, EY promotes entrepreneurial talent with the “Entrepreneur of the Year Junior Academy” program.

About BELLIN

Founded in 1998 in Ettenheim, Germany, BELLIN today is a global leader in consulting, software and services for corporate treasury management. The BELLIN group and partner companies serve close to 300 customers comprising more than 5,000 companies and 15,000 users. BELLIN products are hosted on a secure, private network distributed across five data centers in three countries. BELLIN’s flagship product **tm5** is the web-based all-in-one solution for managing all aspects of a corporate treasury. BELLIN BACKSTAGE is an online platform which enables our users to exchange product, company and industry information within the BELLIN Community. Moreover, BELLIN has created a professional training program, the BELLIN ACADEMY, for all members of the treasury.
